PRODUCT INFORMATION

WASHBASINS

We offer a large selection of shapes and sizes from various reputable and proven manufacturers.

CERAMIC

There is absolutely no health risk with ceramics because of the natural components such as clay and sand. Extremely hard and wear-resistant, it's durable and long-lasting, offering an abrasion and scratch-proof surface which is resistant to aggressive cleaning agents.

GLASS

This is a very durable security glass. Glass washbasins are very low maintenance and are just as easy to clean as ceramic washbasins. The lively reflection of light that arises from the surface area makes your bathroom special.

KRION

This environmentally friendly material is similar to natural stone and feels soft. This composition gives Krion some unique features, for a good feeling in your bathroom.

COUNTERTOP WASHBASINS

Modern look and more effective storage space.

MINERAL MARBLE

Mineral marble is made from mineral fillers and an epoxy binder. It has low heat conductivity and thus a high thermal capacity. The material can be poured into different shapes, is resilient and shatter-proof.

GLASS CERAMIC

Glass ceramic a non-metallic inorganic, recyclable material. So glass ceramics combines the positive properties of glass (high gloss, surface resistant to germs and bacteria) and ceramic properties (durability, easy care and impact resistance).

SURFACES

VARNISHED FRONT

Several coats of lacquer add the perfect shine to surfaces and highlight the modern design of our bathroom furniture.

LAMINATE

Our velvety soft, high gloss laminate front decors offer a special tactile experience which won't be easily forgotten.

SENSORS

SENSOR SWITCHES

Innovative, elegant sensor switches of the latest generation for intuitive control.

MOTION SENSORS

Save energy and enjoy maximum convenience. Including detection range and timer settings.

MADE IN GERMANY

Well above 90 percent of Pelipal bathroom furniture is made in Germany. The production facilities in Schlangen and Eisenberg are among the most advanced in the world. Highly qualified staff, well experienced in the trade, are proud of every perfect piece of furniture that is delivered. Our products are therefore highly trusted in retail and by the end customer.

SMART LIGHTING

LED TECHNOLOGY

Our eco-friendly LED lighting is not only flexible, efficient and durable, but also use very little power, contains no substances that are harmful to the health and is available in various designs.

LEDplus

Innovative lighting with colour temperature change controlled by touching the sensor switch. Hold the switch to adjust the brightness.

LEDplus SYSTEM

Two different LED attachments lights which can be combined with any S10 mirror cabinet in virtually any line, changing the colour temperature with a convenient switch.

LEDplus MIRROR CABINET SYSTEM S10

Lights the entire mirror cabinet with an adjustable colour temperature (LED top light, side light, wash area light). These neutral mirror cabinets S10 are available in 16 different designs, 21 decors, 720-1720 mm wide, and can be ordered for any line.

LEDmotion

The sensor is activated when you enter the room and your bathroom is lit softly and adequately - giving you more room to move about the bathroom, even at night.

LEDrelax

Immerse yourself in a cosy ambiance whilst relaxing after a long day or set the perfect light for applying make-up or shaving. Run the presence simulator whilst on holiday or connect the lighting to the optional Connect motion sensor. Your children will love the "disco function"...

LEDconnect

This lighting control system allows you to control and program the Pelipal LED light in your bathroom. Simply use the connect remote control or the free Smart Control app by AwoX to connect to the lighting in your mirror cabinet. This gives you control over the brightness, switching modes and your personal favourites. With LEDplus you can even choose from approx. 50,000 white tones.

16 MILLION COLOUR VARIATIONS

LEDconnect

DIMMABLE BRIGHTNESS

SMART MEDIA

OPTIONAL RETROFIT: Both modules can be retrofit under any existing base unit or individual furnishings – power connection required!

MUSIC ZONE

Conveniently control the "invisible" system with e.g. a smartphone and enjoy the time in your very own music zone. Use the sound module to listen to music wirelessly, e.g. from your mobile phone, tablet PC, or other devices equipped with Bluetooth technology.

LIGHT + MUSIC ZONE

The smart combination of LED light with motion sensor and the sound module under the vanity unit illuminates the bathroom floor in the dark and provides sound for your bathroom.

CELEBRATE
the SHINE in your
BATHROOM

RADIANT BEAUTY
IN A TIMELESS, MODERN DESIGN

BALTO

The stylish front fascia of the washbasin units in a glass design transform your bathroom into a cool highlight, just as much as the softened edges with high-quality inlays in chrome or trendy black. Wall unit with smoked glass door and internal LED down-light, which can be used separately or to expand the mirror cabinet, adds a great highlight. Atmospheric, elegant

lighting and light effects in furniture and washbasins give your bathroom surroundings an added touch of style. Add washbasins in glass ceramic, combining the positive properties of glass with the advantages of ceramic.

CASSCA

The glass or mineral marble washbasins are available in four sizes and, alongside convenient storage shelves and a generously sized basin, also offer a soft and distinctive shape. This unique use of forms also shows in the handles. The designs of both the mirror cabinets and the vanity units are simultaneously modern yet timeless. Spacious storage

areas, combined with our tried-and-tested classification system fulfil modern-day requirements in just the same way as the effective and functional lighting designs. Cassca is a harmonious combination of functionality and modern design. The success proves it.

CLEVER BATHROOM IDEAS FOR ANY AGE

VERSATILE, FUNCTIONAL INDIVIDUAL FURNISHINGS AND ORGANISERS

CONTEA

The luxurious white mineral marble and glass washbasins in symmetrical or asymmetrical designs are a true highlight of this product line. Atmospheric light effects in the mirror cabinets and classy illumination around the wash area give your bathroom surroundings an added touch of style. The two new, natural looking wood decors "white oak, horizontal effect" and

"Ribbeck oak, horizontal effect" add harmony and passion. Versatile, functional individual furnishings and practical organisers combine storage space and organisation, and add a cosy feel. Contea charms with its harmonic use of forms and a unique design. Simply perfect.

WELCOME

NO BATHROOM IS TOO SMALL FOR US
IDEAL FOR SMALL BATHROOMS OR GUEST BATHROOMS

SOLITAIRE 6900

This bathroom furniture line features impressive curved mineral marble washbasins with bevelled edge for a delicate and light feel. The shallow washbasin depth makes SOLITAIRE 6900 ideal for small, long, or guest bathrooms. Nevertheless, there is no shortage of shelf space next to the basin. The washbasin units offer additional storage space. High-quality

LED lighted mirror including touch switches form a successful combination. A wide-ranging selection of additional units featuring the same shallow depth provide the finishing touches to the range.

SOLITAIRE 6001

SOLITAIRE 6001 adds a touch of energy to your bathroom in the truest sense of the word, since the semicircular curved washbasin creates a vibrant feel good atmosphere. As well as the flowing design language, modern front and carcass decors and glossy chrome handles also contribute to the overall

elegant design. These are complemented by exclusive washbasins made of mineral marble or glass: delicately crafted they almost seem to float above the base unit.

SOLITAIRE 6005

This line brings the current trend for comfort and a natural look and feel to the bathroom. The elegant, curved ceramics and front panel are the visual highlight of this design. The variety and contemporary nature of décor in this line fits harmoniously into any

modern, informal bathroom atmosphere where you can feel good. Logically and harmoniously co-ordinated mirror cabinets and mirrors with modern integrated LED technology round off the range.

PURE CLARITY AND TIMELESS CHARACTER
INNOVATIVE KRION WASHBASINS

SOLITAIRE 6010

The intentional back-to-basics approach of these furnishings gives the range an air of clarity and a timeless character. The choice of whether to fit handles or not, as well as a diverse spectrum of possible combinations also allow you to add your own personal touch to the appearance of your furniture. In addition to different wood decors, there are matt and

high gloss laminate finishes which offer a very unique haptic experience. Another highlight is the option to choose from mineral marble washbasin or a washbasin in innovative Krion.

STYLISH LED LIGHTING

SIDE LED PROFILES ON MIRROR DOORS AND WASHSTAND

SOLITAIRE 6040

SOLITAIRE 6040 features an exclusive design. The straight lined, cubic front panels and built-in aluminium handle strips combine to create an ultra modern look to mix and match with ceramic or mineral marble washbasins. Depending on the desired atmosphere, the front panel and carcass designs range from the purest white to warm wooden decors and

timeless greys all the way to industrial Oxide Ferro. The shining glass fronts in particular create an extravagant appearance that brings a special aesthetic to your bathroom with these smooth, flat surfaces. The range also boasts impressive technology, as the entire ensemble is accentuated by innovative, vertical LED ambiance lighting.

ELEGANCE
takes over
the BATH

A SPECIAL HIGHLIGHT MINERAL
MARBLE WASHBASINS WITH ELEGANT SHIMMER

SOLITAIRE 7005

SOLITAIRE 7005 sets new colour trends with colourful Mineral marble washbasins in modern grey and elegant black. The washstands feature an elegant glitter effect on the colourful surface. Be convinced by the flowing design language of this washbasin, of course also available in white. The glass washbasin in Optiwhite particularly allows you to give a modern bathroom an additional elegant highlight. The wider variants

offer a unique asymmetrical design, which both offers practical shelf space and is a problem-solver for unusual spatial requirements. The sweeping curves continue in the furniture front panels and the handles. Efficient LED lights highlight the washbasin on command and light up your face from the mirror or mirror cabinet without glare.

SOLITAIRE 9020

The appealing curve of the front panel and the soft edges makes this eye-catcher perfect for any bathroom. The enamel and recessed handle give it a special, unique vibrancy. But this line also has a lot to offer in solid colours or appealing wood decors with handle. These impressions are completed with fitting mirrors or mirror cabinets, and particularly the

washbasin with lots of storage. To ensure there's a place for everything, we always have the perfect individual furnishings to add.

AWARD WINNING
for a
REASON

INDUSTRIAL LOOK LOFT DESIGN
OUR GERMAN DESIGN AWARD WINNER 2019

SOLITAIRE 9025

When experiencing this product line, you automatically see yourself inside a beautiful loft in the metropolises of this world. The design received the "GERMAN DESIGN AWARD 2019". SOLITAIRE 9025 captivates with clear shapes, many colour options, great materials and innovative features. From classic ceramic washbasins combined with a strong countertop and open shelving,

all the way to modern mineral marble washbasin paired with front panels in ultra-modern styles – this line is just as individual as the modern city dweller. The furniture is optionally available with eye-catching feet and of course a wide range of fitting mirror cabinets, mirrors and individual furnishings.

WE'RE DISTINGUISHED!

PELIPAL IS TESTBILD WINNER

Pelipal is a top brand in furniture. That was the result of a survey of 6000 people conducted by TESTBild and Statista for the second time. In the survey, Pelipal was placed 1st in the category "bathroom furniture" and the specific criterion "durability". The company has now been awarded the quality seal "Top Brand Home & Living 2019". TESTBild and Statista determined the most popular brands in home furnishings in 7 product types and a total of 85 product categories. About 6000 consumers from throughout Germany were polled for this survey. It determined both the overall winner and the winners for the specific criteria – such as durability, use, design, price/performance, sustainability.

GERMAN DESIGN AWARD WINNER

The German Design Award is the international premium prize of the German Design Council. The goal: identifying and presenting unique design trends. Every year it awards prizes to top class submissions in product and communications design, each that make pioneering contributions to the international design landscape in their own way. The German Design Award is one of the best known design competitions worldwide and is highly regarded. The Special Mention recognises designs which feature particularly exceptional aspects or solutions – an award which honours the dedication of companies and designers.

ISSUED THE "GOLDEN M" CERTIFICATION

The "Golden M" certification is a mark for tested furniture which meets strict criteria in terms of quality, safety and health/environmental protection.

The "Golden M" is awarded by Deutsche Gütegemeinschaft Möbel e.V. (DGM), which has an important task under the RAL umbrella: Ensuring the quality of furniture and intensifying consumer protection. Furniture manufacturers must meet very high standards to be awarded the mark.

THE DREAM BATHROOM FOR DESIGN ENTHUSIASTS

With SOLITAIRE, exclusive shapes meet high functionality. Close the bathroom door, take a deep breath and allow this special design moment to wash over you...
