LEADING INNOVATION IN
SHOWER TRAYS & ENCLOSURES

Smart Water Management Control

Until now shower trays have essentially been a vessel for collecting water during showering, until it finally drains away.

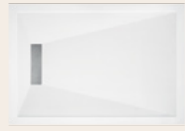

Our unique **Smart Water Management Technology** clears water instantly from the tray's surface. This greatly reduces the slip hazard of surplus water and soap deposits. Although the tray's surface appears almost flat, it combines perfectly with the vortex technology of the waste unit to create a vacuum effect beneath the waste cover.

The result is that almost all surplus water is actually drawn from the tray's surface instantly. In addition, no moving parts or hair traps means no maintenance and no risk of flooding. The **Smart Water Management Technology** is available on the Linear and Symmetry ranges.

To watch Smart Water Management Technology in action, visit: www.tmuk.net/smart_water_technology

Our Range of Shower Trays

Linear

Recommended Users: for all families, elderly and less abled users.

Range Features: 25mm high, 100% natural stone resin. Ultra-modern Linear style wetroom alternative with flush fitted linear stainless steel waste cover (297mm x 75mm). Fitted as a standard shower tray with a simple flush to floor fitting option. Smallest water inlet aperture available featuring micro flow technology. Virtually flat surface. Employs **Smart Water Management Technology** (vortex waste unit and cover included).

Symmetry

Recommended users: for all families, elderly and less abled users. Anti-Slip option available.

Range Features: 25mm high, 100% natural stone resin. Ultra-modern central style wetroom alternative with flush fitted stainless steel waste cover (135mm x 135mm). Fitted as a standard shower tray with a simple flush to floor fitting option. Virtually flat surface. Employs **Smart Water Management Technology** (vortex waste unit and cover included).

Elementary

Recommended Users: for all families and elderly. Anti-slip option available.

Range Features: 25mm high 100% stone resin. Modern ultra-low profile shower tray with unique 125mm x 125mm adjustable square waste cover in chrome plated ABS. Fitted with very low threshold entry (typical installation 10-15mm entry step). Employs traditional water management technology enabling drainage at approximately 30 litres per minute (Vortex waste unit and cover purchased separately).

TRAYMATE

Linear Trays

If you prefer the Classic look of a wetroom with a Linear outlet, this is the range for you. The Linear range has been designed for a broad range of users. Its flush to floor entry, flat surface and flush fitting waste cover combine to minimise hazardous trip areas for young children and those a little less stable on their feet.

The Linear is a breakthrough in shower tray design, offering the smart modern look of a wetroom for all the family but without the associated costs and fitting challenges. It is simply fitted as a shower tray, no tanking or waterproofing is required.

The Linear incorporates our ground breaking **Smart Water Management Technology**. The interaction between the surface design and vortex waste unit clears water and soapy deposits almost instantly, up to 30 litres of water per minute. This prevents puddling and substantially removes the chance of slipping. Also, no moving parts or 'hair traps' in the waste unit, means no maintenance and no risk of flooding. It also allows the tray to appear almost flat when fitted flush to the floor giving that all important wetroom look. The waste cover has also been designed to be fully load bearing which combined with smart technology gives easy access for wheelchair users.

Everything has been considered, even the waste cover has been designed to minimise the possibility of damaging 'tiny toes'.

FEATURES & BENEFITS

RECOMMENDED FOR
elderly, less abled and young children

MADE FROM
100% natural stone resin

ALL MATERIALS ARE
fully recyclable

AVAILABLE IN
34 different sizes

CAN BE FITTED ON
all types of flooring

COMES WITH A
lifetime guarantee

- **Smart Water Management Technology**
- Ultra desirable Linear waste wetroom look
- Ultra-low profile 25mm high with simple flush to floor fitting option
- Fitted as normal shower tray – no tanking or water proofing required
- Unique rectangular 75mm x 297mm stainless steel flush fitting waste cover (fully load-bearing)
- Dedicated high flow, self-cleaning vortex waste unit
- Water removal tested to up to 30 litres per minute, or 20 litres if plumbed to the right
- Step free access – no hazardous trip areas for young children and older people
- Smart virtual flat surface technology achieving a wetroom look
- Fully complies with EN274 European standard for shower flow rates
- Tough repairable gel coat surface
- Suitable for wheelchair access
- Designed and made in the UK

- **Smart Water Management Technology**
- Ultra desirable centre waste wetroom look
- Ultra-low profile 25mm high with simple flush to floor fitting option
- Fitted as normal shower tray – no tanking or water proofing required
- Unique square 135mm x 135mm stainless steel flush fitting waste cover (fully load-bearing)
- Dedicated high flow, self-cleaning vortex waste unit
- Water removal tested to over 30 litres per minute
- Step free access – no hazardous trip areas for young children and older people
- Smart virtual flat surface technology for maximised water drainage and that wetroom look
- Fully complies with EN274 European standard for shower flow rates
- Tough repairable gel coat surface
- Suitable for wheelchair access
- Designed and made in the UK

The Symmetry is a breakthrough in shower tray design offering the smart modern look of a wetroom for all the family but without the associated costs and fitting challenges. It is simply fitted as a shower tray, no tanking or waterproofing is required.

The Symmetry incorporates our ground breaking **Smart Water Management Technology**. Here the interaction between the surface design and vortex waste unit clears water and soapy deposits almost instantly through the waste outlet at over 30 litres per minute. This prevents puddling and substantially removes the chance of slipping. Also, no moving parts or hair traps in the waste unit means no maintenance and no risk of flooding. It also allows the tray to appear almost flat when fitted flush to the floor giving that all important wetroom look.

The waste cover has also been designed to be fully load bearing which combined with smart surface technology gives easy access to wheelchair users. Everything is considered, even the waste cover has been designed to minimise the possibility of damaging 'tiny toes'.

Finally, if you choose our optional anti-slip surface, you can be sure of a lifetime of underfoot confidence when you shower. Every aspect of the Symmetry design benefits from the smart technology that allows it to function as well as it looks.

TRAYMATE

Elementary Trays

If you are looking for a modern, ultra-low-profile shower tray that will continue to look great for years to come, but feel you don't need flush-to-the-floor fitting or that contemporary wetroom look, this is the range for you. Stylish, hard wearing and easy to install, the Elementary is ideal for families of all ages.

The Elementary leads the way in the traditional shower tray market. Look closer and you'll see the unique and ultra-modern adjustable square waste cover and the unique vortex waste unit which removes water from the tray at over 28 litres per minute, faster than any comparable tray in its class.

Want to fit the Elementary off of the floor? Simply use the unique and innovative optional leg set. What's more, our commitment to innovation extends to the optional anti-slip surface of the tray (Also available in the Symmetry range). Rather than applying this after manufacture, we have developed a unique patented process to incorporate the anti-slip surface into the tray itself, ensuring a lifetime of confidence when you're in the shower, and doing away with the need to replace it.

FEATURES & BENEFITS

RECOMMENDED FOR
the whole family

MADE FROM
100% natural stone resin

Anti-Slip Technology

THE SAFER OPTION

Clever Anti-Slip surface technology for a lifetime of showering confidence. Ideally suited to families with young children and those who just want to feel confident on their feet while in the shower, this unique patented technology ensures a lifetime of underfoot confidence when showering.

Unlike other Anti-Slip technologies which are applied on top of the surface of the tray after manufacture and wear away over time, our patented Anti-Slip surface is integrated directly into the shower tray at time of manufacture, meaning it never wears away and will last as long as the shower tray. What's more, because it's actually part of the tray's surface, cleaning it is as simple as cleaning the shower tray.

The Anti-Slip range offers a permanent guaranteed solution. When independently tested to the British standard 7976-2 slip test, the patent protected surface provided almost twice the bathroom industry standard of slip resistance.

The Anti-Slip option is available on selected sizes of the Elementary and Symmetry shower trays.

KIT CONTENTS:
Glass x 2, Wall Post x 2, Front Fixing Kit, Side Fixing Kit, Deflector Panel (Optional)

Sample Enclosure C

KIT CONTENTS:
Glass x 2, Wall Post, Corner Fixing Kit, Front Fixing Kit, Deflector Panel (Optional)

The Simplest Solution

THE ELEMENTARY
LEG SET ADVANCE

Just fix the legs into position, level and lay the tray on top.

Adjusted in seconds, the legs combine together to create the flexibility to raise the tray from 90mm to 172mm from the floor surface allowing full access to the waste trap below.

Finished off with a high quality ABS acrylic capped fascia trim panel(s). This kit is simple, yet engineered to last a lifetime. Each leg is capable of withstanding loads of over 400KG.

The Leg Set Advance kits are only available for the Elementary and Elementary Anti-Slip ranges.

Kit	Shower Tray Size	Product Code	Legs	Fascia Panel
Kit A	760mm Square - 900mm Square	DLPA	5 x Legs	2 x Panels
Kit B	1000mm Rectangular - 1200mm Rectangular	DLPB	7 x Legs	2 x Panels
Kit C	1400mm Rectangular - 1700mm Rectangular	DLPC	8 x Legs	2 x Panels
Kit D	800mm Quadrant - 900mm Quadrant	DLPD	5 x Legs	1 x Panel
Kit E	1000mm Offset Quadrant - 1200 Offset Quadrant	DLPE	6 x Legs	1 x Panel
