## Designer Radiators for Room and Bath

January 2025

**Mars Electro** with smart control 1500 x 445mm White

## Designer Radiators for Room and Bath

Eucotherm have been manufacturing designer radiators for over 30 years, offering radiators for living and bathrooms. Eucotherm radiators are made to the highest standards.

Eucotherm have a UK distribution centre in the midlands holding over 10,000 of the most popular radiators. All radiator prices include delivery and can be delivered on a next day basis if required. Non stocked sizes will take around 6-8 weeks to deliver.

**ORDER BY 3PM**  
for next working  
day delivery\*

\*Subject to postcode

## Find your BTU (British Thermal Unit) rating

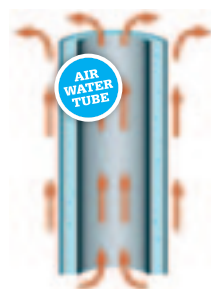

To calculate the average BTU rating for any particular room use the following:

$$\text{Width (ft)} \times \text{Length (ft)} \times \text{Height (ft)} \times 4 = \text{BTU Rating (Average)}$$

(1kW = 3413 BTU)

## Delta 50 (DT50)

Delta 50 = A boiler with a flow temperature of around 75°C, a return temperature of around 65°C and 20°C of room temperature.

- High heating performance thanks to maximisation of the convection principle (chimney effect)
- Minimised water-content means faster warm-up times and energy consumption
- Special process for plastic-coating of outer and inner surfaces
- Tube-in-tube design provides greater heating surface area

Only applies to Vulkan and Supra

- High heating performance thanks to maximisation of the convection principle (chimney effect)
  - Minimised water-content means faster warm-up times and energy consumption
  - Special process for plastic-coating of outer and inner surfaces
  - Tube-in-tube design provides greater heating surface area
- Only applies to Vulkan and Supra

# Aluminium Radiators

## Advantages of Aluminium Radiators

- **Lightweight**
- **High thermal conductivity and fast heat-up**
- **Works with low temperature heat systems and pumps**
- **Smaller radiator for the same heat output as a steel radiator so saving space**
- **The perfect heat-pump and low temperature radiator**
- **Corrosion free**
- **100% recyclable**
- **10 year guarantee**

- Fittings required to fit the infrared radiator to the ceiling

Price (Ex Vat)  
£49

## Central Connection

- Add a central connection (valve extra)

Price (Ex Vat)  
£85

# Bespoke Radiator Guide

## Bespoke size and colour service

Eucotherm have a bespoke size, colour and special textured finish service. All finishes are powder coated and orders for special sizes, colours and finishes take around 6-8 weeks to be delivered. The following pages list the sizes and prices of all white radiator options as standard. For our bespoke colour service we use the RAL colour system and special orders with a chosen RAL colour will incur an extra 20% surcharge on top of the white radiator price.

				
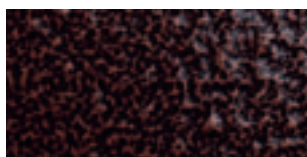

RAL 1001	RAL 1013	RAL 1015	RAL 1018	RAL 1019
				
RAL 1037	RAL 2009	RAL 3003	RAL 3020	RAL 4005
				
RAL 5005	RAL 5007	RAL 6027	RAL 6029	RAL 7003
				
RAL 7005	RAL 7016	RAL 7026	RAL 7035	RAL 7036
				
RAL 7043	RAL 7046	RAL 7047	RAL 8002	RAL 8015
				
RAL 8016	RAL 8017	RAL 9001	RAL 9003	RAL 9005
				
RAL 9006	RAL 9007	RAL 9010	RAL 9016	RAL 9017

DISCLAIMER: Due to the nature of the printing process, paint colours may not be exactly as shown. Please refer to an official RAL chart before placing order.

# Special Finishes

Orders with special textured finishes will incur an extra 30% surcharge on top of the white radiator price.

# You are what you heat

It is the **LAW** that radiators and convectors installed in heating systems in UK buildings conform to the **European Standard EN 442-2**.

Products that conform will have a **UKCA/CE** mark.

*The British Society of Radiator and Convector Manufacturers (BSRMC) are launching a campaign 'You are what you heat' to ensure that consumers are aware of the importance of having quality, UKCA/CE marked radiators installed in their home. Installing radiators that do not conform to UKCA/CE marking could result in cold, expensive and inefficient homes.*

*For more information visit [www.marcuk.co.uk](http://www.marcuk.co.uk)*

MARC members' products, 'do what it says on the box'

**are an associate member of MARC, the BTU of their products are tested and verified.**

**Beware of brands which give false values as nobody wants a cold room!**

**For more information please contact us on:**
