# CONTENTS

## SHOWER SPACES

## SHOWER TRAYS

## WALL PANELS

## COMPLEMENTARY PRODUCTS

# SMO™

A solid material

SMO™ is a mixture of natural stone and a binder covered with a 1mm thick surface gel coat to ensure a perfect, long-lasting finish, unlike other painted shower tray products.

With no seals or bonding, our trays and panels are cast in moulds designed by our development team.

## FROM ONE-OFF PARTS TO PRODUCTION RUNS

We have developed a manufacturing process for SMO™ that enables us to produce individual shower trays and panels within bespoke configurations as well as small and large runs for our collections and major projects.

## METICULOUSLY FINISHED BY HAND, DOWN TO THE LAST DETAIL

There's nothing better than a craftsman's skill and know-how. Even when produced in runs, every SMO™ item is sanded and polished by hand. This gives them a natural feel and finish in an array of satin or gloss colours.

## COLOUR COMBINATIONS CONTEMPORARY, TIMELESS OR DARING

Combined with Ambiance Bain furniture, the shower tray, wall panels and washbasins in SMO™ take on their full decorative and aesthetic dimension by giving a unique personality to your bathroom.

## SILICA FREE

SMO™ Material is 100% Silica free

## WARM AND TACTILE

26 matt and gloss colours + RAL

## EASY TO CLEAN

Moulded in a single piece with no grout lines to maintain, SMO™ wall panels and shower trays are easy to clean and highly resistant to daily cleaning products and cosmetics.

## RESISTANCE TO STAINS AND CHEMICAL AGENTS

PRODUCTS	EXPOSURE TIME	RESISTANCE	RESULTS
VINEGARS	2h/16h/24h	Good	Compliant with EN 14527 test (white vinegar recommended for cleaning SMO™)
SODA, UNBLOCKERS	2h	Good	Compliant with EN 14527 test
SOLVENTS	2h	Good	Test carried out with Acetone, solvent, denture alcohol, 70% Ethanol. Compliant with EN 14527
ANTI-LIMESCALE	2h	Good	Do not allow the product to dry
BLEACH	2h/16h/24h	Good	Compliant with EN 14527 test
DISINFECTANT	2h/16h/24h	Good	Wipe off quickly if allowed to come into contact
NAIL VARNISH		Good	Wipe off quickly if allowed to come into contact
HAIR DYE	2h/16h/24h	Good	Wipe off quickly if allowed to come into contact (do not use products containing ammonia)
SCOURING CREAM		Average	Risk of micro-scratches with this type of product. DO NOT USE.

SMO™ conforms to EN 14527

## PROPERTIES OF SMO™ AND ITS GELCOAT

PROPERTIES	
ANTI-SLIP	PN6 for Gloss PN24 for Matt
SCRATCH RESISTANCE	High
RESISTANCE TO ABRASION	High - Standards XPD12-210 and EN 14688
IMPACT RESISTANCE	High - Standards XPD 60-050
RESISTANCE TO TEMPERATURE DEVIATIONS	Good - Standards EN14 688

WATERPROOF MATERIAL	Sanitary grade gelcoat used for humid environments
CE	n° 002 V01 - EN 14527

## SHOWER SPACES

# MADE TO MEASURE

A shower space made to your exact dimensions

A special dedicated offering to **customise your bathroom and match your style.** Design your shower space. Everything is adjustable to suit your needs: Shower Trays, Wall Panels, Seats. Create the showering space of your desires and we can help provide the solutions to deliver.

**All four edges are finished during moulding.** A line of silicone allows a perfect watertight seal.

- 1. Wide Panel (Up to 140 cm).
- 2. Recessed Tray.
- 3. Standard panels or customised made to measure.
- 4. Seat Bench.
- 5. Finishing panel.

## INSTALLATION

**RECESSED  
(ELEGANCE PLUS)**

**SURFACE MOUNTED  
(UNIVERSAL PLUS)**

**RAISED WITH A PLINTH  
(ELEGANCE PLUS)**

CORNER

BETWEEN 2 WALLS

1. Flat base Shower Tray : finished on 4 sides, can be laid directly onto the existing floor, for a quick and neat installation.
2. Wall Panels : are glued to walls or tiles without the need for a finishing profile, for easy maintenance.

SHOWER SPACES

# SIMPLE & QUICK INSTALLATION

Renovation solution

**A range of products designed for renovation and replacement of baths.** A co-ordinated collection of shower trays and wall panels available in a wide choice of sizes. Cut to size in our factory or adjustable on site, they can be adapted to all bathroom configurations.

# SHOWER TRAYS ADJUSTABLE

Adjustable shower trays can be factory cut to your required dimensions or trimmed on site by your installer

SELECTION OF ADHESIVE &amp; SEALANT AVAILABLE - P. 47

## CUTTING INFORMATION

## LANDSCAPE

## PORTRAIT

- Cutting is available on request in our factory and re-gelcoated for a perfect seal and protection.
- Re-gelcoating is in the same colour or to match the shower tray. However, slight differences in shade may occur.
- Always place the trimmed side against a wall.
- Always flush-fit the tray if it has been cut on 2 long sides (trimming more than 5 cm) or widthways.
- The on-site fitter can make any further adjustments as required.

**Please Note :** Any cut over 5cm from the edge may encroach into the gradient showering area.

**REPAIR KIT :** for repairing marks and scratches that have altered the surface of the gel coat and for optional treating of edges trimmed on site.

<b>KITSMOC ---</b>	<b>£ 99</b>
--------------------	-------------

--- Add colour choice (eg. **KITSMOC 267**)

**⚠** Please read and follow the instructions carefully.

**SIT ON**

OKA shower trays have a flat base so they can be installed directly onto the existing floorboards or tiles.

**INSET**

Thanks to their low height (3.3 cm), OKA shower trays can be fitted onto flooring joists and inset into the floor for a wetroom look.

## HOW TO ORDER

- Indicate the shower tray reference
- The final size required
- Add the code for your colour choice
- Specify the waste cover (if not specified you will receive Stainless Steel)
- **EXAMPLE:**  
ZBOKP080120317 portrait shower tray width 80, length 120 cm, colour 317 Kaolin.

• **PLEASE PROVIDE A DRAWING FOR FACTORY CUTS**

TECHNICAL SPECIFICATIONS

INSTALLATION

RECESSED

Allow a 3.8 cm drop on the entire surface of the Shower Tray.  
H : **minimum** height depending on the waste.

H = 8.5 cm      BONDVIEGA60

SURFACE MOUNTED

H : **minimum** height depending on the waste.

H = 8.5 cm      BONDVIEGA60

**\*NB. CARRIAGE COSTS ARE INCLUDED FOR ALL SHOWER TRAYS AND WALL PANELS.**  
Individually ordered wastes, adhesives and ancillaries will incur a £ 10 P&P charge.

# THE FEATURES OF SMO™

## **SMO™ is an exclusive, solid material developed by Ambiance Bain.**

It is created from a mixture of natural stone powders and low density mineral granules, from recycling, and a binder.

This formula has made the material significantly lighter, and ensures the products can withstand impacts and temperature swings whilst maintaining their dimensional stability.

During the moulding process, it is coated with a 1mm thick protective gel coat, a technique which ensures a perfect finish and that products will stand the test of time.

## **A LIGHTWEIGHT MATERIAL WITH THE SAME STRENGTH, DURABILITY AND FUNCTIONALITY AS BEFORE.**

## THE ADVANTAGES

- **Easy to clean, even in the corners :**
  - No more grout joints.
  - Resistant to daily cleaning products.
  - Resistant to cosmetic products.
- **Aesthetics & colours :**
  - A warm, mineral feel.
  - Wide range of matt and gloss colours.
  - All Classic RAL colours possible.
- **Adaptable to all configurations :**
  - Made to measure, adjustable or standard Shower Trays up to 120 x 200 cm.
  - Can be recessed, raised or surface mounted.
  - Wall panels available up to 250 x 140 cm.
- **Easy installation :**
  - No patching or prior preparation work required.
  - Saves drying and fitting time.
  - Can be fitted over existing wall coverings.
  - Easy cutting and drilling on site.
- **Conforms to EN 14527 - CL 1**
  - Anti-UV treatment.
  - M2 Fire Classification.
- **Silica Free**
  - Safer Work Environment
  - Eco-Friendly

## TOLERANCES

SMO™ is a hand moulded and random cast material. It is coloured using organic powder pigments and the finest iron filings to create our unique colours and finish effects. Each item may have slight imperfections in size, surface and flatness as well as small shade variations between pieces not manufactured together. This is all part of the tolerances of this modern moulded material. The permitted dimensional tolerances that must be taken into consideration are as follows:

Size variations +/- 3mm per meter

Flatness variations: +/- 2mm per meter

Shade variations: Shade and décor can be slightly different from one delivery to another as well as from the samples.

These tolerances are part of the manufacturing process and cannot be exchanged or refunded under the guarantee policy.

# INSTALLING A SHOWER SPACE

## FITTING THE SHOWER TRAY

### 1 PREPARING THE BASE

Prepare the plumbing void depending on:

- The fitting type: surface mounted, built-in, raised;
- The waste;
- The chosen shower tray (see technical section on each shower tray page. We always recommend a peripheral support).

### 2 ADJUSTMENTS

- Position the shower tray.
- Adjust the height and levels using the feet provided (ELEGANCE) or masonry blocks.
- Install the waste and prepare the plumbing.

**⚠ You must perform a water run off and drainage test before the final fitting.**

### 3 FITTING AND GLUING

- Apply sealant around the entire edge of the shower tray.
- We recommend JOINPAN (p. 39).

### 4 SEAL

- Finish off with a sealant bead.
- We recommend JOINPAN (p. 39).

## RECOMMENDATIONS

Flat storage recommended

When vertical store as upright as possible

**CUTTING:** use a continuous rim diamond disc grinder.

**GLUING:** For wall panels use a single-component hybrid adhesive.

**DRILLING:** Use a wood drill bit and a diamond hole saw for drilling holes for shower fittings.

**SEALING:** Use a flexible, fungicidal sealant.

## INSTALLING PANELS

### 1 PREPARATION OF THE PANELS

- Position the panels, check the corner overlap.
- Mark and drill the holes for the fittings.

### 2 GLUING AND FITTING

- Apply the adhesive in vertical stripes to the largest side at 20 cm intervals.
- Fit the 1st panel.
- Apply sealant liberally in corners and at tray where panels meet.
- Apply the adhesive and fit the 2nd panel.
- We recommend using COLLPAN adhesive (p. 39).

### 3 FINISHING SEALANT

- Finish off with a sealant between the panels.
- Also seal between the panels and the shower tray.
- We recommend using JOINPAN sealant (p. 39).

### 4 SHORING

- We recommend shoring the panels for 24 hours to allow all adhesive and sealant to set.

If you or your installer has any installation queries please contact our sales office prior to commencing the installation Tel: 01925 852675.  
Full installation instructions and more information are available at
