Supplies4Heat

Value & Service

FREE NEXT DAY DELIVERY – NOW AVAILABLE!

We know how important it is to keep your projects running smoothly, without delays or extra costs. That's why we're now offering FREE Next Day Delivery* on all products in stocked finishes. Order before 11am, and your materials will be on their way—arriving next working day, at no extra charge.

**orders received after 11am will be delivered in 2 working days. 5 working days for non-stock finishes (see pages 12-13)*

NEXT DAY DELIVERY

At Supplies4Heat our aim is to provide you with a range of great value designer radiators and towel rails. We understand that you want a choice of good-looking, good-quality products, all delivered with reliable service and guarantees.

We promise;

- **Great Value:** quality products at affordable prices.
- **All Products from Stock:** ready to be sent when you need them (excluding Cornel Curved).
- **Free NEXT DAY DELIVERY* for stock finishes:** Free next day delivery applies to stocked finishes ordered by 11am. Scotland and offshore islands may take longer where we aim to deliver within 5 working days (please note that delivery times start from order confirmation date).
- **23 RAL Colours & 10 special finishes:** see pages 12-13 for details
- **Bundle Savings:** best value easy to order bundle options with our **+Valves** prices.
- **Quality Guaranteed:** 10-year guarantee on radiators & towel rails made in our factories.

Terms & Conditions;

Please note VAT will be charged at the prevailing rate at time of invoice; at the time of going to print VAT is 20%.
Orders should be sent to **enquiries@supplies4heat.co.uk**. Orders received into a different inbox may result in delays to the advertised delivery time scales.
Delivery times start from order confirmation date.
For a copy of the full Terms & Conditions please call **01342 306880** or visit **supplies4heat.co.uk**
Our Radiators are produced & outputs measured according to the approved standard BS EN442 which uses Delta t50˚c (Δt). (FARADAY Eco tested to BS EN16430).
BS EN442 states that all hydronic radiators and towel rails are tested and presented at Delta T50. If you require outputs based on a different Delta T multiply the listed Delta T50 outputs by the correction factors shown in the table on page 11.

Supplies4Heat is a brand of **IRSAP**, Italy's leading manufacturer of design led radiators.

If you cannot find what you are looking for in this brochure please refer to our sister brand **The Radiator Company** for a wider choice; **theradiatorcompany.co.uk** or telephone **01342 302250** for a brochure.

Please visit **supplies4heat.co.uk** for help calculating your heat output requirements, selecting your radiators or finding your local merchant or showroom.

Our network of local Merchants will be able to provide expert advice and help with any plumbing & heating needs.

Available on Easyquote

CE/UKCA approved & certified to BS EN442

PIPE CENTRES

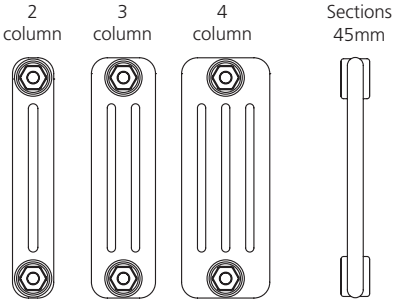
Pipe centres left to right = width of radiator plus valves

Pipe centres from wall (Based on adjustable wall ties)
= 2 column = 64mm - 74mm
= 3 column = 82mm - 92mm
= 4 column = 102mm - 112mm

BORE CENTRES

Bore centres = height less 65mm

Bore centres from base = 32.5mm

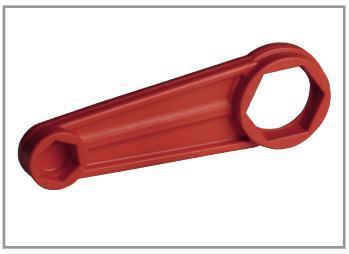


ACCESSORIES

Optional CORNEL Towel Bar

Description	Product Code	Price Ex VAT	Price Inc VAT
Chrome Towel Bar to fit 8 Sections or more	CORNTB08SEC	£111.00	£133.20
Chrome Towel Bar to fit 10 Sections or more	CORNTB10SEC	£122.00	£146.40

Please note: The towel bar will sit off centre for CORNEL radiators that have an uneven number of sections.



Nylon Spanner

Description	Product Code	Price Ex VAT	Price Inc VAT
Nylon Spanner	MCSPANNER	£11.00	£13.20

Perfect for tightening CORNEL bushes and airvents, this robust nylon spanner is an exact fit and will reduce the risk of damaging your radiator with inappropriate metal tools.

DELTA T CORRECTION FACTORS

If you need to know outputs based on a different Delta T you can simply multiply the listed Delta T50 outputs by the correction factors shown in the table (shown right) to get the appropriate output for your system.

DELTA T	*FACTOR*	*DELTA T*	*FACTOR*	*DELTA T*	*FACTOR*
75˚	*1.69*	55˚	*1.13*	35˚	*0.63*
70˚	*1.55*	50˚	*1*	30˚	*0.51*
65˚	*1.41*	45˚	*0.87*	25˚	*0.41*
60˚	*1.27*	40˚	*0.75*	20˚	*0.3*

23 RAL COLOURS

A wide range of our white radiator & towel rail ranges are also available in a choice of 23 RAL Colours or 10 special finishes (excluding the Cornel Electric, Faraday® Eco, Chase, Newlands, Bosworth, Addison, Bayford, Lanark, Cleves & Boleyn).

Your new radiator or towel rail will be painted by our UK-based specialists in a durable satin finish. To allow for the colour process, delivery will take up to 5 working days to UK mainland invoice addresses (Please note: RAL colours marked with an asterisk (*) may require additional time).
The Cornel Curved & Cornel Bench Seat, Faraday & Witton ranges are not included in this 5-day service. Deliveries to Scotland and offshore islands may take longer, where we aim to deliver within 10 working days. For orders of more than 10 radiators, please allow an additional 2 working days.

Choose from 23 popular RAL colours, all painted in a satin sheen finish similar to eggshell. If you need help selecting your finish, colour chip samples are available. Please contact Customer Services on **01342 306880** or visit **supplies4heat.co.uk** to order your sample.

RAL 9016 - Traffic White supplied as standard (excluding the SAXON which is supplied in RAL 9010 as standard).

RAL 1001 - Beige

RAL 1013 - Oyster White

RAL 1015 - Light Ivory

RAL 1019 - Grey Beige

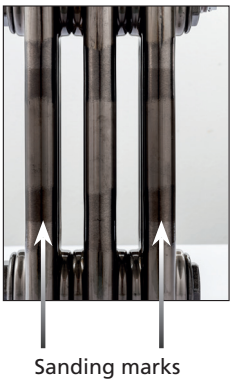
Bare Metal Lacquer Finish

Each radiator will be unique, with the random position of the weld lines on the column tubes and the level of the final sanding.

The clear lacquer allows these characteristics to be the hero and maintains the natural steel finish.



+Valves Prices include angled Nickel KINGSTON TRVs

Please specify at time of order

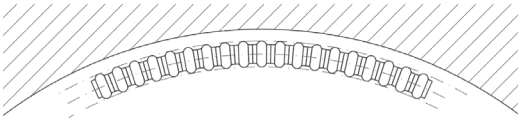
CORNEL Bench shown without Seat

♦ CORNEL Bench Seat in RAL 7016 with optional wooden seat, 4 column, 496mm x 1016mm with Nickel KINGSTON TRVs & matching pipe covers & shrouds.

CORNEL Curved

- Italian design & manufacture, made to order curved radiators
- 2, 3 & 4 column options in a choice of 2 heights in up to 40 sections
- Available in White RAL 9016, 23 RAL colours & 10 special finishes
- Delivery 6 weeks from receipt of written sign off of technical drawings



Internal CORNEL Curved

Our CORNEL Curved radiators are made to order and can be curved to fit bay windows and curved walls. Wall brackets are supplied as standard, optional welded feet are available, please specify at time of order.

SCAN ME

Radiators can be curved using up to 40 sections, minimum 10 sections (450mm).
It is essential to always know how much heat you need to keep your room comfortable.
Use our online **Heat Output Calculator** to work out how much heat you will need for your room before you size your straight radiator.
Curving is a precise process and as such, accurate measurements and calculations must be made and checked before production can begin.
Since our CORNEL Curved is made on a bespoke basis to your exact requirements, we have created a specification form to make the process as easy as possible;

To order your curved radiator follow these simple steps;

- Go to our website **supplies4heat.co.uk** and select 'Cornel Curved' (or scan QR code above) and download the specification form which explains how to measure for your curved radiator, we can also email the specification form to you direct by calling **01342 306880**.
- When you have reviewed the specification form, double-check your measurements are correct to see how your radiator will fit in your space.
- Complete the specification form with the dimensions of your bay and return it to your chosen merchant/installer to place an initial order.
- You will receive a technical drawing of your bay and requested measurements from your merchant and if you are happy you will need to sign the document.
- Use the signed specification form to place your order with your merchant/installer to start production.

Please note; once you have signed off your drawings and ordered your curved radiator it cannot be cancelled or returned.

Calculate the number of sections you need by dividing the required BTU (Watt) output with the output per section; e.g 4500 BTUs divided by 225 = 20 sections, based on 4 column, 500mm high sections (always round up to the next whole number of sections). If the use of this section size does not work in the available space, try a different column option or if possible a different height.

Sizes and Prices (by section)

♦CORNEL Curved in White RAL 9016, 3 column, 597mm x 1826mm with optional welded feet shown with White KINGSTON TRVs & matching pipe covers & shrouds.

FARADAY® Eco

- Next Day Delivery for stock White RAL 9016 (orders placed by 11am), orders after this time will be delivered within 2 working days.
- Exclusively for use with low temperature (Δt 30˚C) systems
- Type 22 (K2) Flat panel radiator with integrated fans
- Integral fans increase the heat output by over 40%*
- 2-year guarantee on electrical components, 10-year on the radiator

The innovative FARADAY® Eco panel radiator, ensures efficient heating in low temperature heating systems. Its unique nature lies in the integration of fans and an autonomous controller directly into the radiator. It can be used without operating the fans or at one of five levels of intensity of forced convection. The efficient fans on top of the radiator can increase the output by over 40%*.

® FARADAY is a registered trademark of IRSAP UK Limited.

Exclusively for Low Temperature Systems

Heat pumps represent a very efficient and economical method of heating. However, choosing a suitable low temperature radiator is important to guarantee optimum performance. The FARADAY® Eco radiator is perfect when combined with a heat pump, ensuring the desired comfort level. Using its integrated fans, this radiator can increase heat output by over 40%*.

The FARADAY® Eco panel radiator can also be used during the summer months, operating in passive cooling mode, they can be part of systems designed to use heat pumps that are able to circulate cooler water (min 18°c to avoid condensation), which will then help to cool the building.

Whether your heating or cooling, the FARADAY® Eco is designed specifically for low temperature systems, maximising outputs in winter and taking the heat off in summer. Standard sizes and brackets make specifying easy and installation simple.
